

NetSuite Financial Management

**The World's #1 Cloud Financial
& ERP Accounting Software**

Close quickly with confidence and report financials faster and accurately

Although no business is equal, accounting and finance are the backbone for all. Optimising profits, ensure business longevity, maintain proper cash flow, minimize capital expenditures, and maximize market share are a must for every running business.

NetSuite's cloud finance and accounting solutions help to keep track of all financial details in one system and ensure long-term financial stability of the business. With real-time financial visibility and business insights to drill into details to quickly resolve delays and generate statements and disclosures that comply multiple regulatory financial compliance requirements such as ASC 606, GAAP, SOX, NetSuite helps you drive financial excellence.

With over 350 NetSuite implementations completed as well as extensive internal expertise in Finance makes NoBlue your ideal partner.

NetSuite financial management seamlessly integrates with all NetSuite order management, inventory, CRM and ecommerce functions to streamline critical business processes.

NetSuite for Financial Management

**ORACLE
NETSUITE**

**5 STAR AWARD
2020 ★★★★★**

We Can Help You

Our overall customer satisfaction receives the highest scores in evaluation/contract negotiation, deployment and integration, and service and support. Our reference customers also praised its value for money spent, ability to understand the client's needs and timeliness of vendor response.

What Gartner says (as of June 2020)

Oracle NetSuite is a Leader and continues to maintain its position relative to both its Ability to Execute and Completeness of Vision since last year's Magic Quadrant with a continuously executed roadmap and broad industry support. Consider NetSuite when seeking a mature midmarket cloud financial management solution capable of supporting substantial global multinational and multi-subsiidiary operations.

Scalability and global reach: Multiple reference customers surveyed remarked on the solution's ability to scale with their organizations' evolving requirements. More than 60% of NetSuite customers operate in more than one country and are able to adjust for currency, language, taxation and legal compliance differences at the local level, and take advantage of global business consolidation.

Customer satisfaction: NetSuite's reference customers continue to score it in the top quartile for overall client satisfaction. Reference customers cited the value of NetSuite's SuiteSuccess methodology, which keeps deployments on track by focusing on delivering industry-specific best practices that minimize risks and accelerate ROI.

Product capability: NetSuite is viewed by Gartner and its reference customers as having strong and comprehensive global financial management functionality. It scored in the top quartile for financial management product functionality in this Magic Quadrant. Reference customers also liked the flexibility of the solution and its ability to be easily customized/configured to meet their needs.
